

Nozzle Extensions are designed to reach out of the way places.

Typical Conventional Gun Extensions are available in lengths from 6" thru 84" (some available longer if required). Other Extensions styles not represented above are also available.

HVLP Extensions are modular in design, allowing for extensions to be attached together to achieve longer lengths, Fluid needles are not modular and need to be purchased separately for special lengths.

All extensions furnished complete with Fluid Needle.

Separate Angle Head 45 or 90 Degree available for HVLP Guns.

Airless Gun Extensions (no fluid needle) also available.

Contact Binks Tech Support 888-992-4657 for assistance with Extension Part Numbers.
